

Mr. Dennis Milsten

Mr. Dennis Milsten was appointed as the Associate Executive Director, Office of Operations for the Office of Construction and Facilities Management (CFM) in January, 2015. In this capacity, he serves as the primary advisor to the Executive Director of CFM on all matters associated with service delivery to clients and is responsible for facilitating effective and standard construction management and implementation strategies. Previously Mr. Milsten served as the Associate Executive Director of the Office of Construction and Facilities Management (CFM) Facilities Programs and Plans since March 2011. In this role, he was directly responsible for establishing and maintaining business practices and processes for Program and Project Management, Design Management, and Construction Management for VA capital projects. Mr. Milsten also retained his role of leading VA's Facility Management Transformation Action Team to establish enterprise processes and procedures for VA facility management.

Mr. Milsten has over 30 years' experience in the facilities management arena. His previous VA experience includes serving as Chief of Quality Assurance Service and as a member of the CFM Contracting staff. Prior to joining VA, Mr. Milsten owned his own company providing construction management and business development services. His experience includes uniform service with the Army as an Engineer Officer and multiple positions with the Corps of Engineers, including Chief, Training Team for the Army Center for Public Works; Resident Engineer, Loring AFB; and Chief, Technical Management and Contract Administration for the Pentagon Renovation Program. Mr. Milsten has also served in private industry with two Architect/Engineer firms providing program management services.

Mr. Milsten holds a Bachelor of Science Degree in Civil Engineering from the Virginia Military Institute. He is also a Certified Construction Manager (CCM) with the Construction Management Association of America. He is married to Donna Milsten, a Construction Project Manager for a major construction company. They reside in Culpeper, VA, where they enjoy raising llamas.
